

The JLord AJAX Recommend – User Guide

Information

The JLord AJAX Recommend is a Joomla 1.5 Native module, this AJAX module provide fully recommend feature on Joomla site within a module – this can does what a component can does.

This can help visitor easier to invite his/her friends to your site without worries of page-refreshing.

The image shows a web form titled "JLord AJAX Recommend" with a blue border. The form contains the following fields and elements:

- Your name**: A text input field.
- Your e-mail**: A text input field.
- Your friend's e-mail [-][+]**: A text input field with expand/collapse icons.
- Message [+]**: A text input field with an expand/collapse icon.
- Are you human being?**: A CAPTCHA field showing the characters "83L73" and a refresh icon.
- Buttons**: "Send" and "Clear" buttons at the bottom.
